

REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the personal conference with the Examiner.

The Examiner's highly beneficial cooperation during the personal conference has been gratefully acknowledged.

In connection with the discussion related to Claim 10, which in applicant's opinion clearly and patentably distinguishes from the prior art, with the present Amendment Claim 10 has been amended to more clearly define the present invention and to avoid the issue of new matter not shown in the drawings.

It is believed that Claim 10 should be considered as patentably distinguishing over the art for the reasons provided in the Amendment of March 9, 2009 and discussed with the Examiner, and should be allowed.

Reconsideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,
/Michael J. Striker/
